

CENTRAL INTELLIGENCE AGENCY

WASHINGTON 25, D. C.

Mr. E. J. Martin
Chief, Personnel and Training Division
Bureau of Public Works
U. S. Department of Commerce
Washington, D. C. 20535

Dear Mr. Martin:

Mr. Malone has asked me to reply to your letter of 28 May.

We should be most happy to provide health unit services to your personnel in the [REDACTED]. At the present, however, we are not providing such on-site services for our own personnel in that building; our personnel come to our headquarters building for their health unit service.

25X1A6a

The medical unit now in the [REDACTED] is performing a specialized service and does not currently have the capacity for such call type of service. We hope, however, to augment that capacity shortly to permit health unit service; this would be available to your personnel and they would be most welcome.

25X1A6a

I shall have one of our staff contact your Mr. Peterson to work out the details.

Sincerely,

L. E. White
Deputy Director
for Support
